

I enjoy listening to XM Satellite Radio and its traffic and weather channels. In my opinion, satellite radio provides variety and quality that are not available elsewhere, especially on broadcast radio. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand (and pay for) and deserve.

Thank you.
